STANDING, FRANKLIN, & STANDING,

Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 64, Cornhill, entrance in Change-alley; Factory, Brandon's Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other patentee, but there are equally in these qualities so absolutely essential to a perfect, and cheaply made of drainage. From the great and visible amount of pressure, and peculiar construction of the machinery relieving the air in vacuo, used in manufacturing their pipes are entirely free from air-bubbles, proving their greater strength, durability and entirely preventing the necessary permeating through; they are smooth outsides on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the offices, 64, Cornhill, where prices, &c., may be obtained, and licences granted for the use of the patent machine.
